

For Immediate Release

ISCEA and Spectro –Technologies are Partnering to Deliver Supply Chain Education, Certification and Recognition Programs in Australia

Cleveland, OH, USA – Aug 11, 2006 ISCEA (International Supply Chain Education Alliance) announced today that **Spectro –Technologies Pty Ltd., of Sydney, Australia** has entered into a Strategic Alliance with International Supply Chain Education Alliance (ISCEA) to offer ISCEA programs to the Australian market.

“We are very excited about our Strategic Partnership with **Spectro –Technologies Pty Ltd., of Sydney, Australia**. We believe this partnership will help us with our mission of offering World Class Supply Chain Education, Certification and Recognition Programs to those interested in Australia. We will now be able to aggressively promote our programs, including the RFIDSCM (Certified RFID Supply Chain Manager) Certification program to Australian Supply Chain and IT Executives. Spectro –Technologies with many established Alliances will play a key role in establishing ISCEA’s Authorized Knowledge Provider Network in Australia to support the increase demand for ISCEA programs in Australia”, stated Dr. Charles A. Watts, Executive Director of Education & Certification of ISCEA.

SpectroTech’s partnership with ISCEA enables a broader educational service for key industries and organizations throughout the Australian market. “With the expected growth of RFID technology, relevant mandates and broad technology application, this strategic partnership enables us to focus on a number of supply chain initiatives leveraging SpectroTech’s extensive background in radio frequency technology, enterprise mobility and that of the ISCEA”, stated Mark Morgan, Founder & Principal Consultant of SpectroTech and President of the Wireless LAN Education Alliance (WLANEA). “SpectroTech also look forward to playing a major role in growing the number of ISCEA alliances throughout our region and overseeing the broader adoption of ISCEA programs”, said Morgan.

About Spectro –Technologies
