

## **Supply Chain Security** **Executive Overview Session**

**Introduction** Customs-trade Partnership Against terrorism (C-TPAT) is United States Government's Supply Chain Security program intended to ensure the continuation of safe global free trade. An effective supply chain security program has a great impact in several areas by reducing cargo theft, preventing the transportation of unintended cargo of illegal drugs, human smuggling and weapons of mass destruction and thus protecting our most important assets, our associates, customer and communities.

Course will provide international standard professional knowledge. After completion of the course, the participants will have a first hand idea of relevant sector and understand depth of knowledge of the industries, which will help them to grow through services and commitments to the Customers, Investors and the Community.
